## F MOLDS

## VERIDENT PLUS ANTERIORS

### SUPPLEMENTAL MOLDS

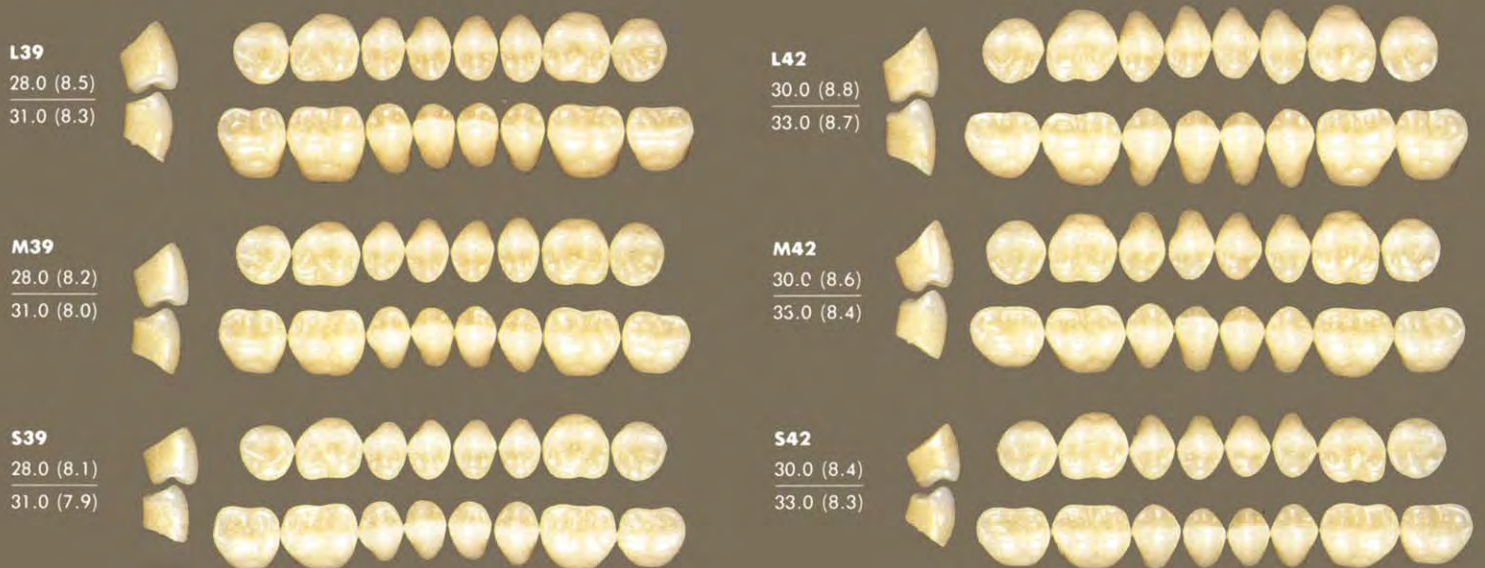

In the Universal Dental mold system, any size denture can be produced—from a 39mm upper anterior set up to a 51 mm set with 0.5 mm increments.

All measurements are in millimeters and vary within ADA specifications.

### LOWER MOLDS

## VERIDENT NIC PLUS 20° POSTERIOR

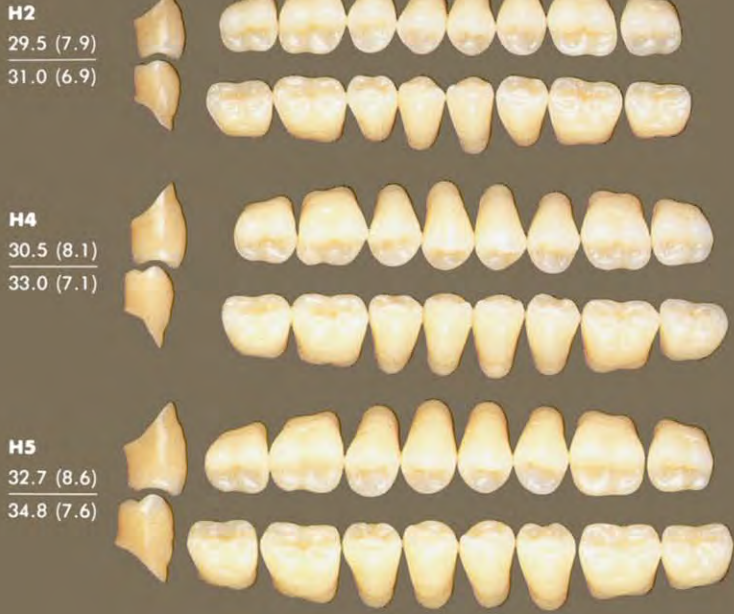

**VERIDENT BIOMECHANICAL PLUS 0° POSTERIOR**

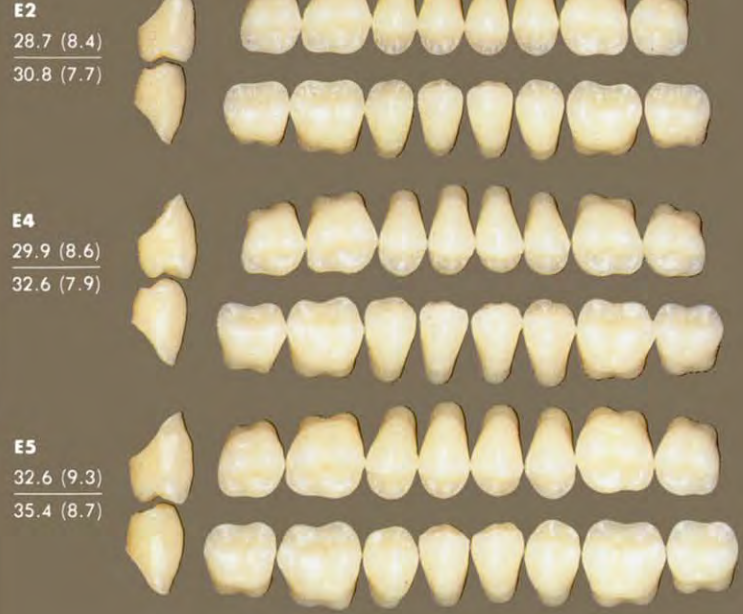

**VERIDENT NIC PLUS 20° POSTERIOR**

## H 10° MOLDS

## E 20° MOLDS

## OPTIFORM MOLDS

Available in three sizes, OPTIFORM molds are selected depending on available space, according to the lingualized occlusion concept. A special manual is available on request.

## VERIDENT NIC PLUS 20° POSTERIOURS — NIC SHORT BITE MOLDS

Short bite molds are designed for a minimum of grinding.

### Posterior Measurements

28.0 (8.2)

31.0 (8.0)

All measurements are in millimeters and vary within ADA specifications.
